Lisa Zimmer Hatch, MA, has been preparing teens and adults for college and careers for more than twenty years. Scott A. Hatch, JD, has prepared thousands of individuals for standardized tests and legal careers. Lisa and Scott are coauthors of SAT II Math For Dummies, SAT II Biology For Dummies, and other For Dummies titles.

We are great fans of For Dummies books because they offer a different perspective on topics as well as useful information. Although this volume was prepared in 2010 and our daughter was taking the 2012 entrance exams, this volume was still very useful in telling her what to expect and how to prepare.

This book was helpful. It helped my son get ready for the test and helps with test anxiety as the sample test was extremely similar to the test he actually took so he was very comfortable taking the test

Seems to be very informative. My son's tutor seems to like it.

Better to use you money on a study group.

Nice

Was very useful for my son to have an idea as to the type of test questions he would come across at the test. Even though he did not work all the questions we used it as a guide so he would feel

better when he went to take the test. A good guide book.

I really enjoyed using this book to study for my HSPT. It gave a variety of different practice tests to see what i know and it explained different answers that i didn't get. It also gave a lot of helpful tips that helped me manage my time and be prepared for when i took the actual test. I would recommend this for anyone that is looking for a cheap HSPT preparation book. :)

My grand daughter found this book very helpful
