Customer Reviews

Not as easy as I thought it would be. I wanted to learn as I drive a lot, but I found it necessary to follow along in the book in order to understand the German translation and I couldn't do that while driving..

My granddaughter will be deployed next winter to Germany. I bought this book for her to learn some their language.

Love this set so much since I found it at our local library, kept renewing it, so when I found it for \$10 I had to have it. Great to listen to in the car.

Basic overview of conversational German. Good for "in the car" use.

This seems to be aimed more at someone working there or going for business than for a traveler on vacation. I would prefer a product that just focused on what I need as a tourist. I don't need to ask someone "where is the meeting?" for example. It is also not an easy language with the single or plural and the feminine or masculine so I will write down certain ones I want to learn, expand on that, and then listen to the CDs in my car to pick up the pronunciations etc. better.

A little too fast paced for me.

This is an ok product, but its not really for beginners. There is no pronouciation guide, and its just listen and repeat, but sometimes you cant understand the person speaking. It would be good for a brush up course, but theres too much info you dont need for simple conversation.

Doesn't fit with my German class at all. Some of the words are different and it doesn't give you any sentence structures. Unless you thin you can learn German off vocabulary alone its best as a supplement to a class.
