Amazing Sports And Science (TIME For Kids Book Of WHY) (TIME For Kids Big Books Of WHY)

Synopsis

TIME for Kids The BIG Book of Why: Sports and Science answers the why, what, when, where, who and how questions that kids commonly ask, but adults can rarely answer. Why does a curve ball curve? Why does a Super Ball bounce so high? How can David Beckham make a soccer ball "bend"? Why can eating chocolate make people hyper? Written in an upbeat manner, each answer is accompanied by either a photo or an illustration to show the reasons why. Of course, TIME For Kids goes beyond answering the question, and dips into the science or history to further explain the answer in an easy-to-follow, straightforward manner. TIME For Kids The BIG Book of Why: Sports and Science is a must-have book to satisfy the most curious of kids.

Customer Reviews

Good book but this entire book is also inside the Big Book of Why which has many other sections as well (so buy that one).

My son finished this book with in a few minutes. Pages are fun to look at I just wish there was more. I was expecting more pages, more text.

Bought as a gift for my nephew, and he loves it -- to the point of making his mom a bit crazy with all the info he is giving her from the book!!

My 9 year old loves this book.

Interesting read for my sons. they enjoy flipping through and relaxing on the couch.

No issues

Loved it

Shorter than I expected, but good, interesting facts. A nice read for my 9 year old.
