My Weird School Fast Facts: Space, Humans, And Farts

Synopsis

Think fast with A.J. and Andrea from My Weird School! Did you know that the planet Jupiter has at least fifty moons? Did you know that Albert Einstein's brain was stolen after he died? Learn more weird-but-true science facts with A.J. and Andrea from Dan Gutman's bestselling My Weird School series. This all-new series of nonfiction books features hundreds of hysterical facts, plus lots of photos and illustrations. Whether you're a kid who wants to learn more about science or simply someone who wants to know how many million times the earth could fit into the sun, this is the book for you! With more than 11 million books sold, the My Weird School series really gets kids reading!

Customer Reviews

Dan Gutman is the author of many books for children, including the My Weird School series, the Flashback Four series, and the New York Times bestselling Genius Files series. Dan has received nineteen state book awards and ninety-two nominations. Dan lives in New York with his wife, Nina. You can visit him online at www.dangutman.com. Jim Paillot lives in Arizona (another weird place) with his weird wife and two weird children. Isn't that weird?

The weird school series is just that = WEIRD. I was worried my kids weren't learning anything. Now they know some funny random facts, which we can talk about, that I like.

My daughter (8, science buff) read this book twice in a row she liked it so much.
