Lepidopterorum Catalogus (Lepidopterorum Catalogues New Series Fasc 118 Part 1) (Vol 1)

Synopsis

The noctuidae of the world, a family with numerous important agricultural pests, comprises about a third of the entire order Lepidoptera. This new three-volume set is the first complete catalog for the world. About 38,000 named species (including known synonyms) are listed alphabetically under each genus name in over 1,000 pages of text. Genera are also listed alphabetically, but subfamily affiliations are noted for each of the valid names to enable users to segregate genera by subfamily. Valid names are noted in boldface. Synonyms are listed for each genus and species; the species synonyms are also listed alphabetically among the valid names, thus enabling users to make two kinds of searches in the text as well as in the index. The catalog provides citation data on all described names (other than infraspecific names), with references cited in the complete bibliography at the end. Reference is also made to more important papers on the biology, larvae, host plants, and illustrations for each species, again with full titles noted in the bibliography. The main host plants for each species, where known, are listed under each. Details of holotypes, where known, are also noted. The bibliography has entries for approximately 4,400 papers.

Book Information

Series: Lepidopterorum Catalogues New Series Fasc 118 Part 1

Hardcover: 1314 pages

Publisher: CRC Press; 1 edition (January 1, 1989)

Language: English

ISBN-10: 0916846458

ISBN-13: 978-0916846459

Product Dimensions: 4 x 8.5 x 10.8 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)
