Customer Reviews

I needed this book because my GED class required it. I am giving this book 4 stars because it has several SEVERAL typos, you can easily point them out if you are a careful reader/studier. Other than that, it has been a good book with lots of skill practices in each section. I struggle with mathematics a lot but this book has helped me to teach myself without too much of a struggle.

As an adult ed teacher of ESL students, i rely on Steck-Vaughn prep books to remain current with the changing Pre-GED and GED tests. They are also easy to understand and provides good practice.
