This is ancient. It looks like the map data is from 2009 or older and has never been updated.

Very helpful, lots of info on parks, points of interest and it not that old a map

My husband loves these gazetteers! He still uses them despite the fact that we have a GPS since they have additional information. We own 1 for every state we have visited, and I am sure if we extend our travels to another state we will order 1 for that state too. Definitely recommend to anyone.

Everything was fantastic. Thank you!

The topographical maps show the rise and fall of the land thus allowing me to get an idea of the difficulty (motorcycle) riding a particular route. I use this in conjunction with Virginia State Road Atlas.

Good for reference in terrain.

It's what I use to plan and then navigate for my destination State(s) for each year's Autumn photo-trek. Used in conjunction with a road map, it works fine.

Map pages are very detailed. Camping, fishing, hiking, museums, natural features, wineries, gardens, scenic drives, etc information in the front of the book is very informative.
