Really enjoy this book. I know I can always trust her recipes no matter what she is cooking up. I have tried at least 15 so far and plan on a lot more. I like they are simple yet delicious. One of my favorites is the chicken parmisan sliders; page 157. I've made these 4 times so far. Another hit with my husband is the Italias Sausages, Peppers and Onions; page 166.. There were some left over so he took them to work the next day for lunch. He said one of the guys who works there came into his office to see what he had. The guy said it smelled just like the sausages and peppers at the fair. And I can say they taste great. Everything has turned out beautifully and I am eager to try more. I bought two other fryer cookbooks before I got this one. (Forgot to check if Camilla had one on air frying.) I hardly open either one since this one entered my home. I think you will be quite pleased if you perchase this.

So far, this cookbook was exactly what I needed to start enjoying my new air fryer. I'm a vegetarian, and there are many, many recipes in this book that are great for me to try. I used a Blooming Onion recipe on a yellow squash I happened to have, and it was the most delicious, crunchy result I've ever had. You need to be willing to check the times to make sure you don't overcook whatever you're making, but I think that's just a smart way to cook. I'd recommend this book to anyone with an air fryer.

If you have an Air Fryer you need this book. Great fish recipies and easy to make. Like potato wedges, you will love this one. Going to work my way through this book they are that good

Great Air Fryer recipe book. The Air Fryers are wonderful, fast and easy to use and this recipe book has 175 of wonderful recipes in it. We even bought another air fryer to keep in our motor home. Love the book. Well worth the price.

Very easy to follow recipes and to modify to your liking. This book contains recipes that I actually eat or would like to try. I have fix several things and show it to friends with airfryers, who ended up ordering the book.

I actually gave this as a gift but the recipient said they have enjoyed it.

We love our air fryer and use it almost every night. But needed more recipes. Looked at a lot of books and think this is the best.

Love the recipes, can't wait to use them all
