Logic Pro X 10.3 - Apple Pro Training Series: Professional Music Production

Synopsis

The Apple-Certified Way to Learn Record, arrange, mix, produce, and polish your music with this bestselling, Apple-certified guide to Logic Pro X 10.3. Veteran producer and composer David Nahmani uses step-by-step, project-based instructions and straightforward explanations to teach everything from basic music creation to sophisticated production techniques. Using the book's downloadable lesson files and Logic Pro X, you'll begin making music in the first lesson. From there, you'll learn to record audio and MIDI, create and edit sequences, and master mixing and automation techniques such as submixing with Track Stacks or the practical uses of true stereo panning. You will create both acoustic and electronic virtual drum performances using Drummer tracks with Drum Kit Designer and Drum Machine Designer. You'll use Logic Pro X MIDI plug-ins and Smart Controls to control software synthesizers from a MIDI controller or an iPad. Flex Time will allow you to precisely edit the timing of notes inside an audio recording, and you'll explore Flex Pitch to correct the pitch of a vocal recording. Finally, you'll mix, automate, and master the song, using plug-ins to process only selected sections or entire tracks, giving your audio creations the final polish needed to achieve a professional sound.

- Downloadable lesson and media files allow you to perform the hands-on exercises.
- Focused lessons take you step by step through practical, real-world tasks.

I would have ranked this book MUCH higher except that it doesn't even MENTION the Score Editor. As that is an important feature, to not even say "the Score Editor is outside the scope of this book" is a serious oversight, in my opinion.

Great value! Better than I expected. Has been very helpful.
