# Rock Anthology: Guitar Play-Along Volume 81 (Hal Leonard Guitar Play-Along)

## Synopsis

(Guitar Play-Along). The Guitar Play-Along Series will help you play your favorite songs quickly and easily! Just follow the tab, listen to the CD to hear how the guitar should sound, and then play along using the separate backing tracks. The melody and lyrics are also included in the book in case you want to sing, or to simply help you follow along. The audio CDs are playable on any CD player. For PC and Mac computer users, the CDs are enhanced so you can adjust the recording to any tempo without changing pitch! This special pack features 15 rock essentials and two CDs: Baba O'Riley \* Barracuda \* Can't Get Enough \* Carry On Wayward Son \* Don't Fear the Reaper \* Free Ride \* Hurts So Good \* I Need to Know \* Let It Ride \* Oye Como Va \* Rhiannon \* Ridin' the Storm Out \* School's Out \* Sultans of Swing \* Ziggy Stardust.

## Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

If you're looking for accurate Tabs and excellent backing tracks, this is it. Use the slow-down

software included and learn slow at first, playing along with the backing tracks. Gradually increase your speed until you reach full tempo. I've bought several of these Hal Leonard Play-along series and It's a real blast being able to play your favorite songs.

Impress the chicks, learn to play! If you can play, try this one, it has lots of good songs and a CD to play along with. Remember, practice often, practice always!

This tab book & play-along CD is not for complete beginners. The songs range in difficulty from moderately-easy to advanced. The included software can slow down or speed up the CD when played on your computer. This is a great bonus, especially useful for learning fast solos. There is a refresher page of the symbols and techniques used in the notation (such as bends, vibrato, pinch harmonics, etc.). Each song is notated in standard notation and tab, and includes lyrics. But the audio on the CD is instruments only - no vocals. I wish it did have vocals, but most guitar play-along CDs don't. That might be a good thing if you want to sing along. A lot of the songs have two guitars (lead and rhythm) but the tab shows one guitar only (usually the lead or main guitar). On the CD, each song comes in two recordings: first: all instruments except vocals (to learn how it's supposed to sound) second: all instruments except vocals and lead guitar (to play along) The sound quality, clarity, and playing is very good as you'd expect from professional session recordings. But I was disappointed that some parts of the guitar playing aren't exactly the same as the original artist's album recording. This is because the transcribers have to use their judgment as to the way it's played in the original, as well as slight differences in playing style, equipment and settings. But overall, I prefer tab books like this to online tabs which can vary greatly in quality.

I listened to the guitar work in Rock Anthology and it reminded me that I was late for workout daily if you can your own peaches.
