## Customer Reviews

What's So Funny About Science?: Cartoons from American Scientist

This is actually a book: paper, binding, etc. I kind of wish I could also get this in digital form so it won't fall apart.

OK, so I'm a scientist, but it's one of the few cartoonbooks that stands re-reading. And, it's not just me. One of my daughter's 7 year old soccer buddies was flipping through and giggling through the cartoonsshe understood. It's understated humor, and it often takes a leap to get from the caption to the laugh, but every one is different and fresh. The facial expressions are particularly good.

This book contains the famous cartoon containing "then a miracle occurs".
