One Race One Blood

Synopsis

It is a rarely discussed fact of history that the premise of Darwinian evolution has been deeply rooted in the worst racist ideology since its inception. Read a thorough account of the effects of evolution on the history of the United States and discrimination based on ethnicity, including slavery and the Civil rights movement. One Race One Blood goes one step farther to show the global harvest of death and tragedy that still finds its roots in Darwin's destructive writings. The tragic legacy of Darwin's controversial speculations on evolution has led to terrible consequences taken to the deadliest extremes. One Race One Blood reveals the origins of these horrors, as well as the proof revealed in Scripture that God created only one race. You will discover: Nazi Germany used evolutionary concepts to justify the extermination of "unfit" people groups such as Jews, Gypsies, and Slavs. The origins of people groups, the genetics of skin color, and what the Bible says about "interracial" marriage. Eye-opening discussion on racism and its roots in the hearts and minds of millions still today. Within these compelling pages, Dr. A. Charles Ware, president of Crossroads Bible College, and Ken Ham, president of Answers in Genesis examine the historical roots of racism that have permeated evolutionary thought, and the Bible's response to this disturbing issue. This is a crucial and timely study that profoundly addresses the Christian worldview regarding "race" from a compassionate and uniquely compelling perspective.

Ken Ham is president and founder of Answers in Genesis and one of the most in-demand speakers

in the world today. He speaks over two hundred times a year to large audiences. Dr Charles Ware is president of Crossroads Bible College in Indianapolis, and the author of several books. He is a brilliant and passionate speaker.

A great book. You get the sad history of racism and then the scientific/genetic evidence showing there is little actual genetic difference between the "races". The differences between the "races" are mostly cultural and Ham proposes that "we do away with using the term 'race' when discussing the different groups of people in the world." He shows that genetically "there is far more variation within a people group than there is between one people group and another." Coauthor Ware (a world leader in multicultural reconciliation) encourages us and rounds out the book with: Biblical teaching on "grace relations", examples of reconciliation for us to follow, and the example of his own Church and College. Not too much technical stuff, but well written by leaders in their fields, and a book I would like to give out to others.

Very good book. Explains the truth that we are all just one race no matter our skin color. Race is something we as humans have made up to control others and manipulate our society. This book reveals the truth from scripture, the Bible, about our blood and the connection to our race.

This one was good, heavy stuff but I was required to read, maybe on my own I wouldn't have bought this book. Nevertheless it worth your time to read it.

A great source to help us recognize and root out Darwinian racist ideology prevalent in all sectors of society including Christian churches.

Excellent book! Well researched and information is well cited. I appreciated the collaboration between the two men to make this book happen!

Very informative on race relations.

Well meant and considerate handling of race. With all its sensitivity one would like a little more accuracy in its science, its history and its biblical theology.

Well written, thorough, and intellectually honest, whether you are person of biblical faith or

not.Worth reading unless one is afraid of being challenged, or standing on thin reasons for their views.
