## **Customer Reviews**

J.A. Underwood is a distinguished translator from German and French. He has translated, among others, Freud, Canetti, Kafka, Benjamin, Gombrowicz, Bachelard and Robbe-Grillet. --This text refers to an out of print or unavailable edition of this title.

necessity

If you have any interest in the history of photography, art or 20th century culture, this seminal work from before WW2 is an essential.

This essay is a great place for someone to begin or continue their study of aesthetics. It is written in a very approachable way that nearly demands self reflection on the part of the reader.

A short read packed with many thought-provoking ideas. Glad that I read it after hearing it mentioned by John Hodgeman on the Marc Maron podcast.

Gosteit.

I bought this book for a gift to my art teacher and he was very happy. My brother who is working on his PHD recommended me this book. Lots of art philosophy .

A well written and well thought out book. A classic to go back to again and again. Will give me alot to think about.

This ten dollar book is more like a pamphlet. Be aware what you're paying for. This is to say nothing of the content of the "book", which is fine, but potential buyers should check what exactly is going into their shopping carts.
