Customer Reviews

I was pretty happy with the book but it seemed to be written for an audience that doesn't have a kiln. It seems to be more for the beginner going to a studio to paint. I learned a few tricks but not what I thought was worth the cost. I saw some really nice samples from some great artists though. If I owned a studio where people came in to paint I would want this book but not just to have as a professional ceramic painter.

Ran across the book by accident. Loved the contents. Went absolutely wild when I saw the works of Brenda Star. I wish I knew where to contact her.
