Customer Reviews

Maybe this was not designed as a road map, but for this use I found it difficult to follow and much preferred the Philip's Road Map. My navigator agreed that Philip's was superior. We left the Benelux in a guest house in the Netherlands.

Good map, but did not meet our expectations.

A beautifully detailed and accurate map! Great cartography by Michelin.

It was too big for us since we were on a tour. If you were driving it might be OK.

Of no use to a USA tourist. Description states the language is in English but cities are all in local language

This map is just not practical. Too cumbersome to open. Don't even think of trying to open it in a car. Too hard to differentiate the roads. Regret this purchase. I bought this on the Rick Steves' website rather than on . You can normally trust anything on Rick Steves' website, but this is an exception. I also bought the France map. I have not looked at that one yet, but I am not optimistic.
