# The Detox Miracle Sourcebook: Raw Foods And Herbs For Complete Cellular Regeneration

## Synopsis

â œYou donâ™t have to accept the â™death sentenceâ™ offered by other medical systems,â • Dr. Morse has told thousands of patients over the years. Since 1972, he has directed a health clinic in Florida, successfully helping people cure themselves of cancer, diabetes, M.S., Crohnâ™s disease, along with both brain and nerve damage. His âœmiracleâ• approach is fully detailed in this comprehensive book. The cause of illness is poison (acidosis), i.e., toxins from our food, water and air. No genuine healing can proceed in such a toxified environment. Morseâ™s system is to treat the cause of illness, not the symptoms! The Detox Miracle Sourcebook shows you how to use raw foods and herbs as of the primary means of detoxification, healing, and ultimate regeneration of weak or diseased cells. This book is called a âœresourcebookâ• because of the vast reference material it contains. The author presents a complete overview of every bodily system and every organ. He details the causes of âœbreakdownâ• in each system and recommends natural means â“ raw foods and herbs -- for cleansing, and then strengthening of each part. Comprehensive charts and tables specify the sources for and uses of vitamins, major minerals, trace minerals, cell salts, herbs, fruits and vegetables, essential oils, phytochemicals. His chapters on what to expect as you detoxify are especially valuable. Morse describes the natural âœside effectsâ• (from the mild to the extreme) of releasing toxins from the body. He explains in commonsense terms how to encourage this âœhealing crisisâ• while at the same time maintaining overall balance in the body. He also offers dramatic accounts of how his own patients have healed themselves of chronic and acute conditions by using these methods. Two detox âœmiracleâ• diets are offered as the core of his natural cleansing system. He offers suggestions for the use of fresh juices, recipes for raw foods and a selection of cooked dishes that will gently ease even the timid into the process. Other outstanding features include: lists of the toxic chemicals commonly found in foods, air, water; a massive glossary of medical and nutritional terms; a Resource Guide for where and how to acquire healthy foods, oils, bodycare products, educational materials, etc.; an extensive Bibliography.

Helping others to help themselves through education provides a lasting impression upon their overall health. What better way to serve the Lord than to educate the masses.â•âœ Gary L. His clinic is located in Port Charlotte, Florida.

I found this book so helpful. I have my resources in one book. I even purchased hard copy along with kindle format.

Dr. Morse's paints a clear picture of where our health problems stem from, how certain systems are affected, and what to do to change our course and improve our health on the road to "Wellville." A must read for anybody looking for a different alternative or something to combine with traditional medicine.

The program sure is working for me! Very easy to read and lots of information that assimilates well!

Dr. Morse's herbal tonics are the BEST, too!!!

I love this book because it helps you from step one to the end and everywhere in between. There are 4 including myself doing this detox and i've seen firsthand how it works. We are changed physically, mentally & spiritual. GREAT!!

So discript, hits all the basic points then goes deeper for a thorough understanding. Covers many subject but brings it all together

This book will teach you everything you need to know about your body, how it works, and how to take care of it.

Our current medical establishment has made health and wellness so complex and fragmented that it simply disempowers anyone who wants to take more responsibility for their health. Trying to go about it with by reading the books from the traditional medical establishment is nearly impossible. Robert More presents the basics of health is and how to attain it, such that any 10 year old can pick it up. Actually, I'm teaching the basic principles to my 8 year old daughter, who's now teaching it to her teachers at school! It really is that simple, because our bodies are such incredible healing machines when we clean it of all the junk and feed it properly. I recommend this for anyone wanting to take full responsibility over their health to heal themselves and live a long, healthy life. This book will give you everything you need to know to do that.

This book is a "must have". I followed the detox and lost 17 pounds in one month.
