Cinderella And The Colonel (Timeless Fairy Tales Book 3)

Synopsis

Cinderella may be a duchess, but her life is in tatters. Orphaned, destitute, and living in a country recovering from a hostile takeover, Cinderella is desperate to save her lands and servants. She is so determined that when terrible taxes are placed upon her, she dons servants' clothes and works like a commoner. Unfortunately, her sacrifices aren't enough, and she is given one season to pay off her debt. All seems lost, until Cinderella is befriended by the debonair Colonel Friedrich—a member of the Erlauf military and a citizen of the oppressing country that rules her homeland. Though Friedrich shamelessly flirts with her and pesters her at all hours all the day, Cinderella wonders if he is more than he appears to be and if together they could unite their lands against the bitterness and resentment that threatens to destroy them. CINDERELLA AND THE COLONEL is fairy tale retelling of love, sacrifice, adventure, and magic. It is filled with humor, deception, and clean romance, and it belongs to the best selling series, TIMELESS FAIRY TALES. The books in this series take place in the same world and can be read all together, or as individual, stand-alone books. If you love sweet romances and magical adventures, download a sample or buy CINDERELLA AND THE COLONEL today!

Customer Reviews

2.5 stars For me, this was a "turn off my brain and enjoy" book that left me smiling. The writing is stronger than I expected at first but still less than I'd expect from a traditionally published novel--solid, though. Uses a lot of popular fiction tropes but has arranged them in a surprising/fresh way given it's a Cinderella fairy tale. I've also never read the "woman trying to maintain her household in a conquered nation" plot outside of *Gone with the Wind* before. Biggest Pro: A Cinderella with real agency and complexity, who's busy actually doing a wide variety of things. Some of those things are over the top and not terribly convincing, or just outright cliché, but I'm not going to lie--I was a little in love with her myself. She's the sort of larger-than-life but still flawed and unique character who I can really see as heroic and look up to. Biggest Con: It's a relatively mild version of the traditional abusive stalker romance plot. The Colonel forces his attentions upon Cinderella, who for a long time outright hates him and just tolerates him because his military rank means she has to, until she gives in. I really hate the urge to make a strong female character and then have a male who doesn't take no for an answer break her, but this one wasn't as bad as some others since (a) she's a real strong character and not a faux one, and (b) he isn't physically violent toward her. The last novel I read was much worse in this respect, which is probably why I was able to overlook the fault here. I'd recommend for someone obsessed with fairy tale retellings but wouldn't recommend for children since I'd be concerned about it socializing them into accepting/expecting/romanticizing boundary violations. There are much more intellectually and emotionally satisfying books out there in this genre but I could see myself getting into this author because she's prolific and has that surprising spark of creativity and charisma that I kind of like even more in rough form than in more sophisticated writing.

I was pretty sure I'd like this book when I got it. And guess what? I wasn't wrong. At first, the tone felt a bit too formal, almost off-putting. For the first chapter or two I questioned if I should flip over to one of my other books, but I liked Cinderella's character from chapter one and decided to continue on. The story sucked me in from there. The retelling felt fresh, not an old tale that has been re-imagined time and time again, which made it truly delightful. I was even pleasantly surprised by an unexpected plot twist near the middle. The romance in this story is subtle at first and a delight to follow--clean, and sweet. Honestly, I shared Cinderella's feeling about certain characters right along

with her. That made the story all the more fun. She was easy to identify with, and easy to cheer, thus the 5 stars. Basically, if you love fairy tales, this is a lovely retelling, and one you are certain to enjoy. Content warning: CLEAN. Minor violence.

I thoroughly enjoyed this rendition of Cinderella. It was well thought out and the characters were fleshed out in a wonderful way. The relationship between Cinderella and her step family was most interesting and I found I really appreciated the outcome there. Cinderella wasn't written in an unrealistic and overly sweet way. Instead she was smart and savvy, keeping her estate going even after the other wealthy people in her area had been killed or had to let their staff go and sell their property. I happily recommend this book to anyone that wants a Cinderella story that still has magic, but where the protagonist doesn't really need it to achieve all of her goals.

I enjoyed this book immensely!! Cinderella stories are an absolute favorite of mine- be it book or movie form- and this one was excellent! Oh, so good!! I loved all the twists on the traditional story as well as getting to know the Prince for more than two seconds during the ball. I'll be the first to tell you that I don't mind insta-love in certain stories, but I also really, Really liked how there was an actual relationship between the two throughout the book before they are married. I don't want to get all spoiler-y, but I can guarantee that you will love this book whether you're a big Cinderella fan like me or just a general lover of fairytales. The romance was sweet and 100% clean.

I am a shameless Cinderella fan. I love the fairy tale and will pretty much give any spin off story a try. This book fit my mood perfectly. However, it had many grammatical errors and was a bit 'done'. It wasn't a bad book, however I doubt I will ever take the time to reread it.

I skipped the second book in this series, but really, this one could stand alone, so that didn't matter. I really liked this reimagining of Cinderella, even if it barely resembled the original. I enjoyed seeing the differences and similarities. One of my favorite things about this book was Cinderella's character. She understood that if she gave up, she would become a "damsel in distress", but she remained strong and didn't give up hope. And throughout it all, she kept her integrity and kindness. Being kind and gentle and being strong don't have to be mutually exclusive. In fact, being kind, forgiving, and choosing to love instead of hate really takes a lot more strength of mind than many people are willing to work on. 5 stars. Now I have to go back and read the first book again...
