## Customer Reviews

This book, Popular Woodworking's Arts & Crafts Furniture Projects (2008), is a nice expansion of the PW's previous title, Authentic A & C Furniture Projects (2000). If you're looking for an easy to follow Arts & Crafts furniture book, this one fits the bill pretty well. This title has 26 projects; These projects use modern tools/techniques, great for building A & C furniture to fill your bungalow. Of the 22 projects from the 2000 book, seven projects are included in the 2008 book, nine are on the

bonus cd, and six are omitted. Missing projects are: Spindle side table, Octagonal Tabet, Bungalow mailbox, Heirloom cradle, Two Frames, and the Garden storage bench. All the articles include materials lists, construction techniques, and sources for supplies. The bonus disc includes ten articles on techniques, as well as 10 project plans, all are PDFs, so they print well. This book is a worthy addition to the home craftsman's library.

Would rate this as a five except for two things. 1. Although extra material is advertised as available on a bonus CD, I can find no means by which I can obtain or otherwise gain access to this from the Kindle version of the book. 2. The material cut lists for the projects are almost unreadably small in the kindle version. As a lesser issue, I would have liked a few more pictures of some of the complex pieces during assembly.

It's O.K., but a little thin on content. The CD is a nice touch, but the coverage of this FAMOUS furniture style is thinly represented.

Very nice book. Nice variety of projects. All color photos. Lots of detail in the drawings and many 'tips and tricks' to help with your projects. A valuable addition to my arts and crafts library.

I may not be utilizing it, but it is giving me some ideas.

If you like Greene and Greene this is a must have. Have shared this with my woodworking friends and they like it a lot. We will be making several projects from here as I fill my house with Arts & Crafts style furniture.

This book has so many great ideas for furniture. I don't know where to start. I love the instructions. I am a beginner but I think even I can create nice furniture.

this was a gift for my brother in law who is a carpenter. I believe he enjoyed it.
