Bought this book for my daughter to try some in her Café, she has tried several with great success. Who could go wrong with Emeril?

Gave this book to my son, it reads well, the recipes sound delicious, but are prep/ingredient intensive. He might use it for ideas, but can't be sure that he'll follow the recipes closely. Might just make him hungry so that he heads out to a sandwich shop.

These sandwiches are works of art. I don't come anywhere near having the ingredients to make any of them. They require a plan and a trip to several specialty shops, which are in short supply around here. If you could create (maybe with a couple of friends) one of these sublime sandwiches a month, I'm sure it would be worth the effort and a great accomplishment. They make my mouth water to read the recipes. I'm planning a trip to New Orleans right now and I know just the place in The French Market to buy the best Fried Shrimp Po'Boy.

Although I rarely have all the ingredients, I love his recipes and this book is lots of fun reading, drooling over, etc. Will have to select a few sandwiches and get the ingredients and try them. I used to watch his TV shows and especially waited for the nights when he was on Food Channel.
