Bathroom Remodeling (For Pros By Pros)

Synopsis

Smart remodeling decisions start here. Get the bathroom you've always wanted and get a solid return on your investment. Written by and for working professionals, Bathroom Remodeling is your roadmap to tackling the typical challenges of bath makeovers, getting the most for your dollar, and adding value to your home. Be prepared to learn from the best in the business. Totally updated and expanded, this best seller familiarizes you with every facet of bathroom design and installation, from carving out a bath from a closet to creating a luxurious spa. You'll know in advance when it's most critical to how to keep your project on budget, avoid the seven sins of bathroom design, and prevent what everyone dreads to moisture problems that can impact your health and rot your home. Arm yourself with the latest advice before you shop. With the flood of new materials and products on the market, the guidance in Bathroom Remodeling will help you navigate typical pitfalls. Avoid costly errors when you learn how to work with today's newest plumbing materials and proper installation methods for the many types of tile now available. And you'll shop smarter once you know why the cheapest sink isn't always the best buy.

All contributing authors are seasoned professionals whose articles have appeared in Fine

Homebuilding magazine. Since 1981 Fine Homebuilding has been providing information and inspiration to everyone who cares about quality home improvement and construction. the magazine is the best source of home improvement information and helps readers build projects better, faster, and more efficiently.

This book has a number of great ideas and easy to read step-by-step instructions. I'm using for a bathroom remodel and it's been a great reference which didn't break the bank. I use as a supplement to "The Visual Handbook of Building and Remodeling" and between the two books and videos online, I have what I need to get the job done without breaking code.

You are better off watching YouTube videos which are free and much better.

This is a great book with detailed images and text, that both homeowners and professionals will find helpful. The author does a great job on providing beneficial pictures that are described in detail, along with illustrations and charts that supplement the reading. This book is not a boring read, and provides tips and techniques that even seasoned professionals might find helpful.

good basic information with pictures. Does not go into great detail, but the pictures help. If your looking for basic information on do it yourself bathroom remodel this book is a good start.

So excited to read this book!

The book give me some good ideas.

Good book but I would have liked more how to info.

Lots of good info.
