good quality and much easier to carry around than a heavy field guide

My 3rd card of the same area. Previous review explains I gifted a friend with my first one, bought myself another, then lost it. I actually like the Eastern Birds card a little better than the Pennsylvania Birds as it seems to include birds I see in PA that are not on the PA card! Both are excellent for quick reference. Price is right, too!

Bought one in the store, and I'm here to order two more for gifts! This is perfect to keep by the window, where we can see our bird feeder. With two toddlers, our bird book was getting a little mangled. This is a very sturdy, laminated (?) brochure, with large, great, colored pictures of all the birds we need. No more having to scour the pages of our bird book! Now we can just open this baby up, and easily identify the birds we see.

Very clear and comfortable to use, great size. Got it for my 7 years old son and he really enjoy it.

Use all the time

Great, simple guide. Love the photos. It is laminated, and folds easily, so great to take along in our backpack.

a little brief, but its just a pocket guide. lamination is good, durable.
