Lee Anne White is the author of "Outdoor Living Idea Book, Backyard Idea Book, "and "Pool Idea Book," She is also a photographer specializing in landscape architecture and garden design. Purchased the book primarily to help brainstorm design ideas for different spaces. The book abounds with pictures and images of a variety creative, artful and visually appealing designs for a variety of climates. That is, there are pictures of nicely laid out small spaces and large spaces for Southwest (dry and hot) or Northeast (wet and cold) climates. Not as much for the Southwest as I would have preferred, but overall, no complaints. Includes useful comments, consistent color themes, dramatic colors, interesting examples of accessories. There are visually appealing spaces with minimal plants (think low maintenance) and small spaces with stacks of potted plants for you high maintenance lovers who are really into your plants. Worked for me.

lots of ideas but not all ideas are for amateur DIY's

If want a lot of pictures, this is for you.

Very dated.

Watch out this book has a lot of great ideas and it will only cause you to create more. Seriously if you have a blank yard this book will help you create something special. Why have a cookie cutter yard?

Give me the idea what to make things for backyard. It's very interesting. Thanks

All books were sent to my home address so I haven't seen them since I work overseas. My gal says they have some great ideas.

The book is ok for ideas. I was looking for some unique ideas for an outdoor kitchen and this didn't suit my needs. Many ideas are not suitable for a normal, subdivision backyard.
