## Synopsis

Is Your Cat A Finicky Eater - Simple Tips to Get Even the Most Finicky Cats to Eat

**PREVIEW:** Most of pet owners know that their much loved four-legged members of the family come with a lot of personality and unique, sometimes almost human-like behavior. For instance, my cat would act as a peacemaker when she smells the human fight. If I become angry and start raising my voice during the conversation with someone, she would just jump on my legs and slightly scratch me in an attempt to cool me off. I am sure that people can tell us plenty of such examples of interesting pet behavior. But do they realize that their pets can be very picky when it comes to choosing a new friend? They do it using such criteria as smell, size, gender, age and even appearance. In fact, they can even discriminate other animals according to the color of the fur among other things, as I soon discovered about my new cat. And you can BUY this book, if you want more!
