PERSONAL INJURY CASE EVALUATION

What's My Case Worth?

Theda C. Snyder

Synopsis

Evaluating a personal injury claim is no easy task. Whether you are handling your own lawsuit or working with an attorney, this book will help you better understand the value of your claim. Attorney Theda C. Snyder describes in detail how to use a sophisticated line-up of case evaluation methods. Even lawyers and claim professionals may not approach case valuation in such a disciplined fashion. Starting with gut instinct—•a surprisingly valid technique for the right person—through the use of a variety of accessible technology resources up to mock trial and arbitration, this book guides the reader through the case evaluation process. Written in simple, direct language, this information will be valuable not only to claimants representing themselves but also attorneys and claims professionals.

Other books talk about how to manage the litigation process on your own. This is the only one that tells you how to figure out what your case is worth. Other books tell you how to gather information and to negotiate. Great- but how to start? Or end for that matter. This book tells you precisely what to do with the information you gather and how to figure out your first offer. It provides insight into how the other side arrived at its number. There are details on how to gather support for your negotiating position, including websites. Whether you are on your own, or looking over your

attorneyÃ¢Â¢Â¢s shoulder, this book will help you achieve your best result.
