Some of the coloring pages and several of the puzzle pages are very pixellated, and most of the puzzles are very simple. Mostly disappointing.

This book is OK, very much more of coloring book to me, rather than a word activity book, great for personal color coordinations practice!

cheap printing, terrible crosswords puzzles, mostly coloring and not very good designs.

Wish I'd noticed before I bought this book that all but one of the 5-star ratings appear to have been written by the same person. This book is a poor value for several reasons: First, the book pages appear to have been created using an old Word or Excel program, with limited grid formatting; Second, the patterns for coloring are dense and printed with heavy lines, leaving little room to actually color; Third, the puzzles and activities are suitable only for children. They are very, very simplistic; Fourth, the Tic-Tac-Toe and Dots-and-Boxes pages are unnecessary fillers since any scrap of paper could be used for them; Fifth, the quality of the paper is not very good. Photos are included to illustrate my points.

Much amazing book with lot of colour and puzzles in good to have this kind of book while travelling with much superb crossword to make our travel trip busy in playing and enjoying it. I will recommend it to all my friends and relative to get benefits of this book while travelling. And i specially thanking

you for developing such an amazing book. I really liked it.

a great book for a pastime ,hobby or just if you wish to tap your creative skills, one can spend his/her time creatively and theres so much to choose from , truly proud of my decision to have purchased this book for , I would say its much more worth than what its priced at.you can enjoy your hours of creative activities plus its stress relieving coloring pages AND puzzles challenge your mind and critical thinking skills! in short I loved it

Beautiful book, excellent quality and a lot of fun! This is such a fun book, its thick with a lot of variety of things to do. I love that it has both puzzles and coloring pages and the solutions to the puzzles in the back of the book! I hate it when I can't figure out an answer to a puzzle and the answer isn't somewhere in the book. I think this will keep me busy for awhile. It's challenging but in a fun way. Definitely for an adult. I took some pictures of some of the coloring pages and puzzles since doesn't show it, but there were too many for me to take pictures of everything.

This book is best one for me when I travel and the way the activities are portrayed here is something which makes it so interesting. I love playing Sudoku and the riddles are just fun. I have decided to give this on my friends birthday as he too loves this kind of activities. Try it out for yourself.
