ICD 10: International Statistical Classification Of Diseases And Related Health Problems Volume 1

Synopsis

The first volume, which runs well over 1,000 pages, contains the classification at the three- and four-character levels, the classification of the morphology of neoplasms, special tabulation lists for mortality and morbidity, definitions, and the nomenclature regulations. The volume also reproduces the report of the International Conference for the Tenth Revision, which indicates the many complex considerations behind the revisions.
