Ming-Ju Sun has worked in fashion advertising as an illustrator, art director, and photographer. Her original illustrations for Garfinckel's department store, along with her original drawings from Dover's Fashions of the First Ladies Coloring Book, are archived at the Smithsonian's National Museum of American History.

a little too repetitive for me with models dressed in leaves vs. flowers. I liked coloring the faces and giving character to them. I would recommend this book but I would not do another one myself.

As a lover of flowers and fashion coloring, this book is the ultimate!. The clothes are flowers!! As with the other fashion books I have purchased, I am on my second book and loving it just as much as I did the first time. I would recommend this book to any flower or fashion coloring person.

Could not be any better for me...the girliest adult coloring book you could come up with: combines fashion and flowers. I also use colored pencils and blend them so it's almost like choosing makeup etc. when coloring the girls skin and hair. Only your imagination is the limit.

Just started hobby for stress/concentration. Was using my computer and that just made me worse. This is my jump into it book as I experiment, great for that and sure to please botanical fans.

This is probaby my favorite coloring book. I mostly used water-color pencils with it and colored almost all of the ladies. When I switched to gel pens, I also switched to doing mostly mandalas, but of all the zillions of things I've colored, I think this book was the best.

I received this item today and it was packaged in a bigger box, so it wasn't bent but rather in perfect condition. The paper is thicker than a regular kids coloring book, but I found it easier to just tear the perforated pages out of the book and color on a hard surface since I tend to blend my colors, and in doing so, I tend to press harder. I used Crayola colored pencils 50 ct for mine (the yellow & purple flowers pic) and ended up with a good result. I used crayola markers medium tip (for the green dress picture). I would buy more from this artist again.

I originally bought this as a part of another coloring book. It has beautiful flowers patterns that I had to buy the book by itself and recoloring them again. Get it. I highly recommend for those who love flowers.

Another Creative Havens book that I purchased. Good quality. Printed on one side. Very nice for colored pencils
