Everything You Need To Ace World History In One Big Fat Notebook: The Complete Middle School Study Guide (Big Fat Notebooks)

Synopsis

It's the revolutionary world history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace World History . . . kicks off with the Paleolithic Era and transports the reader to ancient civilizations from Africa and beyond; the middle ages across the world; the Renaissance; the age of exploration and colonialism, revolutions, and the modern world and the wars and movements that shaped it. The BIG FAT NOTEBOOK series is built on a simple and irresistible concept borrowing the notes from the smartest kid in class. There are five books in all, and each is the only one book you need for each main subject taught in middle school: Math, Science, American History, English, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in marker colors. Definitions explained. Doodles that illuminate tricky concepts. Mnemonics for a memorable shortcut. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

I love these books! Great resources for kids doing their homework at home!

The kids love it and has amazing colorful highlighted pages. Truly enjoy the book and the thickness of it.

Well, it was fine at first until it went to the religion chapter. Even though it was double checked, I still found a mistake. They mixed up the Hindu gods by their names. The kids loved it though. Good job on the making of this book.

I bought all four of these books (World History, US History, Science, and Math) for my family. I have them on our coffee table and my 11 year old son loves reading them.

Nice Middle School set. The layout is very accessible and the content good. My son was interested enough, he used them for his independent reading when they first arrived.

Be prepared to write your own lesson plans but the test questions are great.

My kids have all of the books of this series and find them easily accessible and interesting to read.

Engaging, easy to read and lots of graphics including a friendly size make this book and the series a great choice. There are times where some information is introduced but it isn't quite detailed enough.
