Customer Reviews

Really like the size of the squares/circles to color and the color chart.

Variety of images. Easier than your average adult coloring book, but still detailed enough to be mildly challenging. Except that it is a color by number book so the work of choosing colors is done for you. Theme is garden type images, plenty of butterflies and some dragonflies and of course flowers. I liked the artist/style a lot.

First of all, I would not recommend this book to anyone who is looking to display their finished work. The pages are not perforated and the numbers are so dark they show through every color except black. The pages are also very thin and curl if you are using marker. The reason I gave the book

three stars instead of two is the variety of pictures and the price. If it cost more than \$6 I would have given it two stars. You definitely get what you pay for with the cheap paper and also the execution is sloppy as a lot of areas in the picture are not numbered.
