# Treatment Resource Manual For Speech Language Pathology (with Student Web Site Printed Access Card)

## **Synopsis**

TREATMENT RESOURCE MANUAL FOR SPEECH-LANGUAGE PATHOLOGY, Fifth Edition, is an ideal text for students entering a clinical practicum or preparing for certification and licensure, as well as practicing professionals who need a thorough guide to reliable intervention materials. This detailed, evidence-based text includes complete coverage of common disorder characteristics, treatment approaches, information reporting techniques, and patient profiles across a wide range of child and adult client populations. In addition, the text contains a wealth of practical resources, including information on intervention strategies, goals, and techniques, as well as forms available in digital format for easy duplication and customization to specific experiences. The Fifth Edition features extensive new and updated material to reflect recent developments in the field and current evidence-based best practices. Two new chapters are dedicated to communication deficits in patients with autism or traumatic brain injury, both rapidly growing client populations. Additional updates include discussion of the impact of Common Core Standards on school-based interventions and the reaction-to-intervention (RTI) instructional model, new documentation trends such as self-reporting, expanded coverage of "telepractice," and new information on group therapy strategies. Widely respected this is a must-have resource for Speech-Language Pathology students and professionals.

## **Book Information**

Paperback: 530 pages

Publisher: Delmar Cengage Learning; 5 edition (January 2, 2015)

Language: English

## **Customer Reviews**

"I love the treatment resource manual and have been using it for years. It is a practical guide with

concrete ideas. The appendices is filled with useful charts/information. "It covers all of the learning objectives for our clinical methods course and is an excellent resource for students to refer to during their studies and when they begin their CF (clinical field) experience."

Froma P. Roth, Ph.D., is a professor in the department of hearing and speech sciences at the University of Maryland, College Park. She received her bachelor's degree from Hunter College, her master's degree from Queens College, and her doctoral degree from the Graduate Center of the City University of New York. Dr. Roth's current research interests focus on the relationship between oral language development and early reading and writing acquisition, phonological awareness intervention for preschool children with primary speech and language deficits, and language and literacy development in children with cochlear implants. Colleen K. Worthington, M.S., is director of the speech-language clinic in the department of hearing and speech sciences at the University of Maryland, College Park. She received her bachelor's degree from the University of Maryland and her master's degree from Loyola College, Baltimore. Her primary clinical and research interests include language development, phonology, and the supervisory process, including investigating the effectiveness of commercially available phonological awareness intervention programs.

No need to buy new! I thought I was helping myself out by ensuring I had the access code for the online content. In other classes, exams have come directly from the online preparatory quizzes and there was a great deal of useful tools included. With this online content, you will simply be spending \$100 for .doc versions of the appendices. If this is worth the \$100 to you, then I recommend that you buy the book new. Otherwise, I think you will be happy with a used copy.

Very helpful manual for the future SLP!

Needed this for school. Easy to access via kindle, no complaints

Excellent. Well written.

I have not finished the book, but read through a couple of chapters and found it rather helpful. I recommend aspiring speech paths to get it.

bought as a requirement for one of my classes...exactly the same as the one in the campus book

store

Prompt shipment, item as described.

Great book!
