Glynis Has Your Number: Discover What Life Has In Store For You Through The Power Of Numerology!

Synopsis

An accessible guide to everything the simple art of numerology can reveal about your friends, loved ones, colleagues, and--especially--yourself! Glynis McCants has gained a huge following with her on-target celebrity predictions. Now she's set to help readers lead the life they want with her simple numerology system. Using an ancient but surprisingly easy system of numbers, Glynis will show readers how to recognize their strengths, break harmful patterns, and change their lives for the better. In *Glynis Has Your Number*, Glynis shows us how to find the unique set of numbers that "vibrate" within each of us, and how these numbers affect every aspect of our lives. Glynis gives readers all the tools they need to test their compatibility with loved ones, better navigate the waters at work, and find success by choosing pursuits that are in sync with their numbers.

Customer Reviews

Glynis McCants has been the celebrity Numerologist on The Dr Phil Show. The Dr. Oz Show, CBS' The Talk, The View, Entertainment Tonight, Good Morning America, Good [Day LA](#), E! Entertainment, The Today Show [and many others](#). When a broken heart led her to visit her first Numerologist nineteen years ago, Glynis, a performer and writer, had no idea she was about to discover her life's true purpose. Since then she has made the science of numbers into a successful career and is recognized as the entertainment industry's foremost Numerologist. Glynis resides outside of Los Angeles.

I loved this book! I can't stop telling my friends and coworkers about this book. I think that everyone

should own a copy. Glynis is dead on with everything that she had to say. I love this book because it helped me understand myself better and in a new light than before. There were times that I felt not only misunderstood by others, but even by myself! Reading about my numbers helped to realize that I am not misunderstood but there are many facets to my personality and the vibrations that I give off due to my numbers. I feel much better and secure with who I am, what I have to offer, and a simplistic understanding to my inner self. I don't look at the numbers the same way anymore. It has really impacted how I perceive situations, days, and people. It has even helped me to interact with people I don't care with at work much better because now I can explain logically why I don't like them & why we don't get along, yet how to overcome those issues. Ideal for the workplace for sure. I also love how straightforward the wording is, and what an easy read it is as well. The book is fun and uplifting, and speaks to the reader in a one on one approach. The book is awesome and truly life changing.

This is a fascinating look at how numbers can be used to dissect personality. I was amazed at how accurate the analysis fit me and those in my family. I don't know how the correlations were arrived at but somehow it works. If you are into astrology you will like this as well. If you are not into astrology you will find the algorithms fun to calculate. I don't think I would run my life based on this book but it does offer interesting insight into how your birthdate and your name influence your life. It's an easy read full of how to instructions.

I live by this book and it has not let me down. I wasn't a believer in the beginning and would never venture into this type of information but after hearing the author on Coast2CoastAM talk show I became interested enough to get the book. I have bought more than one because it really seems to work and it only takes minutes to run the numbers to a happier life!

absolutely a fabulous book. there is no phone in it here she knows what she's doing. very simple to understand- it's another science like astrology there are a lot of things that can give you the information numbers is one of them and this is one of the great books for that I don't think another book could compare

Love this book. I am getting into the numerical and very interested. Read it all the time.

Glynis explains in great detail about numbers. I bought this book for my daughter for Christmas, but

read some of it before I gave it. A year later she in turn bought one for me. I guess she found it interesting as well. Whether or not you believe numbers defines you, it is an interesting concept, and the more you know, the closer you come to understanding the universe.

It seems that one never stops learning. I had no idea what numbers could tell us until I read Glynis' book. Now the information and formulas will be put into practice to determine who is in my space and who needs to leave it. Glynis explains the process clearly so there doesn't seem to be much confusion about how to gather information. And the results of the people that I tested it on (family and close friends) turned out to be very accurate. I recommend this book. It's not a book you can just sit and read like a novel, but one that keeps your mind active and arouses curiosity. It was very enjoyable!

Glynis is very knowledgeable and informative with numerology and numbers. I'm really happy I bought this book, and can't wait to do numerology on those closest to me.. I love that you can learn what makes people who they are by doing this one simple thing. If you are on the fence about this book, its totally worth the read!
