Customer Reviews

before this I hated running any RPG campaign dealing with towns because it kills the momentum and just becomes 2 hours of haggling for magic items. This helps open up story ideas and plot hooks.

Great for when we need a city map, although the creases take a bit to wear in.

Great product, good graphics and good quality. Much better with detail than I can draw using dry erase.

awesome

I was perhaps initially disappointed with this, though its likely my fault. I as are most people like to troll the brothels and dens of ill repute in my neighborhood, and thought this was guide to those.

Much to my disappointment it was an aid for a game and not a potential gateway to aids, or other STD's. I must rate this product a complete failure if your goal is to get real life women to bed down with you for the evening, but a great success if you wish to get non-existent women. This is a good rule of thumb RPG games will almost never get you laid, so if you're taking notes jot that down. As for a map and game it's great and I would recommend it.
