I highly recommend Learning from Lincoln. Whether you are a historian who appreciates one of our country's most influential leaders, or an educator looking for advice geared toward leadership practices that might be right for you, then this is your book. It's an enjoyable read that balances the history with life lessons. It tells of Lincoln's brilliance as he led the country in arguably one of its most difficult times and ties them to how his strategies will work today in our school systems and leadership roles that many of its readers embrace on a daily basis as life long learners. Enjoy.

I use statements out of this book for my meetings with building level administrators and I used quotes in articles that I have written.

The man was very wise and demonstrated a good understanding of others. We need more leaders with his philosophy of what it means to be a leader.
