About Berlitz For more than 125 years, Berlitz has been the most trusted name in language learning. Berlitz was built on the principle that language skills are best acquired through conversation, with a focus on real-life situations. Today, we offer self-study audio language programs, phrasebooks and dictionaries in more than 30 languages for children and adults. With more than 450 language schools in over 60 countries, Berlitz has taught millions how to speak another language.

I bought this at a low price from Media Universe. It is in excellent conditions. This book is useful and I could learn it really fast. The only thing that I don't like about the book is that there is no Japanese

writing lesson until the last couple chapters of the book.

What a great deal on this product. I originally had this box set many years ago but it seems I misplaced my CD's and was left with only my textbook. I decided to reorder this box set again. I'm glad I can sit down and relearn things I forgot and progress in my learning and become more fluent.

Pro: 1-Clear explanation of basic grammar. 2-Pronunciation speed slow enough to fit beginners. Con: 1-Recording sound quality: harsh. Berlitz says, on the cover page, that the original publication was from another company (Ch & Tsui). I am not sure that the recording was originally from cassette tapes (very noisy background) ?? 2- Binding: Same problems with other 30-days-series (I own French & Spanish 30 days) the binding was unsatisfactory. I can't open the book easily and the individual pages came off loose after few attempts. I am not sure if the speaker(s) is(are) native Japanese. 3- Not enough Japanese characters.

I brought it, tried it, and regret it. WARNING: don't waste your money on the audio CD. It sounds like the audio was converted from an old tape recording of an old man talking in a tunnel... oh, and my Japanese friend confirmed he has a lisp! This is also creepy... seriously! Example: "Berlitz Japanese lesson 17: What Do You Like?"... Old guy: "which teacher do you like?" Young girl: "I like the history teacher"... Clearly, Berlitz are going for a very specific market here... Someone should have told this old guy he is past it and can't pronounce his native language well enough to teach it. This is a great example for everyone wanting to learn about Japan - specifically, why their economic is stagnant and why companies like Toyota end up with 'safety issues'. They should have hired a guy off the street with a good mike on his phone and access to a quiet room.

The CD is again scratched up; Is selling returned products. Buyer of this kind of product can make purchases and downloads the CD on to iphone and returns them. The CD "cartboard" holder is too tight to take out the CD.
