The Truth Spell (Werewolf High Book 1)

Synopsis

A dastardly spell. Mysterious billionaires. An ordinary girl thrust into an extraordinary world. Lucy O'Connor is more IT girl than "it girl" but even though she'll never fit in, the scholarship to elite Amaris High is an opportunity she can't refuse. The day Lucy arrives at Amaris, she sees her best friend, Sam Spencer. But Sam had died three years ago, on the night that had changed Lucy's life forever. The more Lucy looks for answers, the worse things get for her, as she makes an enemy of the richest, most popular boy in school, Tennyson Wilde. When the entire school is hit by a truth spell, it seems like the perfect chance to find out what Sam and Tennyson are hiding, but the closer Lucy gets, the more she realizes that the truth is stranger than she ever imagined. Customer Reviews

I love this series!!! I don't think I can get through them fast enough. The covers are awesome, which pulled me in right away. I absolutely adore stories written at schools and when there's magic involved, hello pure bliss! Anita created a whole social system unlike anything I've ever seen and it

totally works. I love how she chose to set up the location of the school. It adds an air of mystery and does create a whole set of problems in and of itself. Her writing is so gripping that I felt like I was the main character at times and it was so addictive. I find that I want to know more about the Golden just like all of her side characters or other students in the books and I was flipping pages as fast as I could. I'm going to go purchase book 2 now but you just have to start here.

I downloaded this book for free (though not as an ARC, with no ask for a review) and I am not sure how long it has been sitting in my kindle library but it has been sitting. I was looking for a quick read, it took me about 5 hours to devour this book and devour it I did!! It was an interesting story about an out of place teen and her struggle to acclimate to a boarding school for the wealthy. She has to catch up academically and quickly figure out that at least some of the Paranormal world is real ... really dangerous and out to get them! This book is well written, interesting and the characters are easily identified with. You really start to like some & not some others ... though I hope to change my mind about a couple by the end of the next couple books!

I really enjoyed this book. Got sucked in and couldn't wait to find out where it led me. I enjoyed the ending but like that it left some of the mystery so that I know I'll get to find out more in the next book! It was great that it was self contained though so the problems and conflict were resolved by the end.

Thrown into a world she knows nothing about at a school she got into by some miracle. She is forced to face her best friend Sam who she thought was dead. A outcast but a strong teenager she will be triumphant or will she fall victim to bullying.

Finally a book I can share with my niece. This book was just enough to pull you in and make you want to find the answers to the Whys. Not quite Harry Potter but this author is nowhere near through. ON TO BOOK 2

Solid series start. Good take on paranormal. Going to read more ... Recommended for either Young Adult or Paranormal fans, especially if you like both.

I received this book for free to review for and the author, and I loved this book!! The writer kept the story light and still interesting and hard to put down. I liked it so well, I bought the other two and hoped there were going to be more. This was a quick read for me....having started and finished it in

a days time. I thought I was finished with the 'teen angst paranormal' stuff...but this was definitely a wake up. Anita Oh is great at what she does. Please buy her books. They are fresh and enjoyably readable!! You won't go wrong on this little trilogy.

I am in love with the series. I don't usually read this kind of YA but the characters are so intriguing and the story lines suck you in. It's a perfect fun, light read for anyone!
