Customer Reviews

Franko Maps Ltd. is known for producing the best travel, dive and snorkel maps, guides and fish cards for the Caribbean and other locations worldwide.

These are great reference tools.

This company no longer has Franko working for them, and any products made since summer 2012 are not produced by Franko. What they've done lately is create a whole slew of fish ID cards for various parts of the Caribbean which are identical, other than the title ('Cozumel' or 'Honduras Bay Islands' or 'Cuba' for example). The problem with this is that not all species on the cards are found everywhere in the Caribbean, and some places have unique creatures found only there, which are important but not shown. These problems are popping up everywhere due to Franko no longer being part of the company.
