Customer Reviews

I have not been a big fan of Jillian but I thought I would read her latest book. It has many things I

have heard before, but I like how she emphasized health myths. She was right in saying that there is a lot of misinformation out there. I like that she doesn't say her way is the only way to do things and she also gives you many options. I like how she makes this book about average people who have busy lives. Like I said a lot of things I have read before, but she took a lot of resources and put it in an easy to read book.

I love honesty and I feel Jillian is honest. I identify well with the language, bluntness, and overall way the book is written. It works well to motivate me.

LOVE her advice. I'm a fan and she's definitely motivating. This book comes from a more mature and experienced Jillian Michaels, I feel. It's the culmination of everything she's learned thus far, working with her clients as well as her personal experience with her health.

This book tells you everything you need to know to lose weight, get inspired and cut the crap from all those fad diets. She loves her customers and it shows in her presentation and with all the awesome info she gives.

I usually like Jillian's stuff, but I found the format of this book uninteresting. Just item after item of good weight loss tips, but nothing concrete enough for me. Great tips, don't get me wrong, just hard for me to digest.

Great book. Easy to follow. Common Sense but a good read. Lost 30 pounds following her program.

Jillian is as always a hard core dose of truth. She reminds me of the things I know but don't always do and introduces me to plenty of new info. She reminds me of my middle school gym teacher and I absolutely love that about her because it is EXACTLY what I need.

I have read all of her books. I love her style of writing in this book. She simply breaks down tips for living healthy. You pick which ones you follow and score yourself. It gave me a chance to see for myself where I was being lazy and ways I could change. I love this book and highly recommend it along with any other Jillian Michaels book.
