Quick Service. Great book to use for teaching at the college level or to keep on hand for review.

This was a required text for a college class I was taking and it was so disappointing. There doesn't seem to be a clear time line laid out and as a class we found many issues, so many that our professor had to supplement this text with correct information that made sense in the form of handouts. If you don't HAVE to purchase this book don't.

This book was required for one of my classes and I thoroughly enjoyed it! I learned so much that I had no idea about. I liked the loose-leaf format more than I originally thought I would and will probably use loose-leaf books in the future.

This was supposed to be a new book and it was actually a copy that was to go into a binder. It also had food on the cover before the plastic was removed.

Used this textbook for my master's degree. Excellent quality

Book arrived on time and in great condition. Bought it for a class. Just know that it is loose leaf but all I did was bought a binder and it was all good.

Item came neat and intact

Very current issue are included as it was updated in 2014.
