Customer Reviews

This book is a clearly written recipe guide for use with air fryers. It opens with a pitch for air fryers, making the case that they lend a rich, crispy flavor to fried foods without requiring fattening oil. They can do this because they circulate hot air quickly, cook with oils naturally present, and generate no excess grease. Better than convection ovens, according to the author. The book consists mainly of recipes that are organized in terms of meal categories (breakfast, lunch, dinner, appetizers, snacks, side dishes, and desserts). Each recipe is presented with an overview, list of ingredients, and step-by-step instructions for preparing the item. Many of the recipes are for tasty south of the border foods. Examples of the recipes are apple cinnamon empanadas, blueberry muffins, french toast, omelet, vegetarian pizza, there is quesadillas, chicken tenders, like bean and cheese veggie burger, eggplant Parmesan, bruschetta, potato croquettes, crabcakes, desserts (cheesecake, brownies, cupcakes, chocolate cream pie).

Good product. Made some of the recipes and all turned out good

Amazing little cooking gadget. I don't even use my toaster oven now that I have this air fryer.

Disappointed with this cookbook. It does not offer enough practical recipes.

Has a lot of interesting recipes. I wish it had more photographs, i.e. "Line the inside of your air fryer basket with tin foil, leaving enough space around the edges for air to circulate through the basket" groovy, but I'd like to see what that looks like. As well as the finished dishes.

Good

This book is filled with recipes. Over two-thirds of them I wouldn't cook. However, if you looking a for a solid cook, this is a good one.

I was looking for a more simple cookbook. Sort of throw it in and cook it.
