Customer Reviews

From the opening pages of this book, I was hooked. Dave Durand shares his deep and broad understanding of what prevents us from having what we want in our lives, and provides you with simple and proven strategies for sustaining motivation while creating the life you've always wanted. So much more than the typical business or self-help book you may have read in the past, Durand's focus is on The Pursuit of Life's Perfect Balance. He teaches you how to achieve success in the areas of the six balance points of your life: Family, Financial Responsibility, Health, Social contribution, Education and vocation, and Faith. Durand's blueprint for balanced success lays out your plan for a more fulfilled, balanced, and rewarding life. If you desire to have, do, and be more in your life, I highly recommend you read Perpetual Motivation!

Great read: Proof that there is a better way to build a successful life that is as sustainable as it is inspiring.

This book by a sales leader describes how to become motivated to be prosperous in marketing and as an independent business owner.

Dave is amazing with his encouragement and insight.

Clear. Helpful from a parent's perspective (although not limited to).

Haven't really been able to go through this book. It doesn't hold my attention too well. Wouldn't really recommend it.

This book has nothing to do with motivating you. All it talks about is disciplining your children, letting go of your ego, being selfless, balance your life etc. etc. This has nothing to do with motivation. I am completely disappointed in this book and will be sending it back for a refund.

Dave Durand's book is a coiled spring, wound tight with power capable of changing your life. A tremendous amount of wisdom and compelling new ideas for getting the most out of life are packed into this slender volume. In these confusing times of warp-speed change, it's a must read for everybody who wants to put a firmer foundation under their life.
