Water Of Baptism, Water For Life: An Activity Book

Synopsis

Water for Life is an illustrated activity book for 8-11 year olds (although adults will also find it informative) and families. It can be used in an educational or devotional setting at home, church, or school. Water connects all physical and spiritual life. Besides being essential for life, water is the visible sign of Baptism, which calls us to serve others in the world. Having clean water for all God's children is an act of justice, love, respect and a core value of what it means to be a Christian. These illustrated workbook activities tap into multiple learning levels and offer a variety of ways for children to interact with this core value of our faith, making a direct connection for young people between their faith and daily life. Activities also connect clean water and the Millennium Development Goals.

The Rev. Canon Anne Kitch is the Canon for Christian Formation in the Episcopal Diocese of Bethlehem. A noted author of books for children, parents and families, she has served as Canon for Christian Formation at the Cathedral Church of the Nativity in Bethlehem, PA and St. Peter's Church in Peekskill, NY. She also serves on the faculty of the Clergy Leadership Project, since 2007. She holds a master of divinity degree from The General Theological Seminary in New York City.

This book makes amazing connections between baptism and the science of water and water conservation. We used it with our elementary-age youth group who were all going to be baptized and it has inspired us to get involved in a mission project. We will learn about Haiti and the need for water filters in schools there. We'll connect with a school in Haiti, exchange photos and letters and such, and do lots more science and some fundraisers so we can fund some water filters. I was looking for a baptism study that wasn't full of religious jargon and I found it!

This is very helpful in encouraging a to ask questions and helps teach a greater understanding of Baptism, it explained it well to my 9 year old.

All you need to know about Baptism and some matters about water you may not have thought of. I certainly am more conservative of water since reading this.
