The Dising of America's Children: Exposing The ADHD Fiasco And Empowering Parents To Take Back Control

Synopsis

How parents, teachers, and even professionals are being deceived by the "ADHD Establishment" regarding ADHD and other childhood behavior disorders and the drugs used to treat them. The issue of diagnosing children with behavioral diseases that do not conform to a scientific definition of disease, and then medicating them is a scandal ready to erupt. In *The Diseasing of America's Children*, popular family psychologist, speaker, and best-selling author John Rosemond joins with pediatrician Dr. Bose Ravenel to uncover the fiction and fallacy behind attention-deficit/hyperactivity disorder (ADHD), oppositional defiant disorder (ODD), early-onset bipolar disorder (EOBD), and the drugs prescribed to treat them. Rosemond and Ravenel will: reveal the pseudo-science behind these diagnoses explain how parents, teachers, and even professionals are deceived expose the short- and long-term dangers behavioral drugs pose to children discuss how America's schools are unwittingly feeding the diagnostic beast reveal the simple, common sense truth behind these behavior problems and give parents a practical program for curing these problems without drugs or dependence on professionals

John Rosemond is a family psychologist, popular speaker, featured guest on major television talk shows, author of thirteen books on parenting issues, and syndicated columnist for more than two hundred newspapers. He and his wife, Willie, have been married more than forty years and have two adult children and seven grandchildren. Dr. Bose Ravenel is a pediatrician with twenty-six

years experience in private practice and eleven years teaching residents. A member of several professional organizations, he is an author and speaker in the areas of child discipline and parenting and has appeared on numerous media outlets and participated in public debates including national meetings of Focus on the Family and the Christian Medical and Dental Association. He published a commentary titled A New Paradigm for ADD/ADHD and Behavioral Management Without Medication.

John Rosemond does a brilliant job of giving the facts and statistics concerning this so called disease. A real eye opener! Highly recommend!

Dr Rosemond takes all the known facts about ADHD and lays it all out on the table. I'm so glad I found this book before having my child "evaluated" and possibly put on medication. If you want to learn the real facts, this book has done the hard work of the research for you.

I FINALLY feel hope for my 11 yr. old girl. Dr. Rosemond and Dr. Ravenal, you have answered my prayers!

Fascinating read! I found this book to be most informative, and down to earth common sense-filled. A must read for ALL parents of all age children.

Excellent book that reveals all the myths regarded as science concerning ADHD and the new "discovered" children brain diseases: Oppositional defiant disorder, bipolar disorder. If you have doubts concerning medicating your children read this first.

This should be required reading for every teacher and parent.

Every parent and school teacher should read.

Great book!
