## **Customer Reviews**

Loved all the recipes. It was easy to read and understand. Looking forward to starting the diet! I'll let you know how it goes!

Being a Keto devotee, I can always use more info and different recipes and this book provided both. Was definitely worth the read.

Really like the info, but it would be better if all ingredients used the same method of measurement. Also, the book needs a bit of editing.

Thanks

I really like it very informative and I can't wait to start applying it to my life style, and loos some weight, and get healthy thank you.

Following the good book already

It got us started

Yes, no more counting calories! I love this book and the tips inside it. It helped me understand foods more and how they impact our fat loss and overall health. I totally hate counting calories, it makes me feel deprived of all the foods I want to eat. I just can't help it. But a ketogenic diet switch is really worth it. What it takes is portion control and proper training. I'm also crazy about the Keto diet shopping list in this book for the 4 week action plan. A must-have!
