Customer Reviews

"Overall, this is an excellent textbook - outstanding even...This can be the best introductory French textbook by far to date.Â I was extremely impressed with the comprehensive nature of the book and the detail.Â The authors truly did a remarkable job in creating this textbook.Â Chapeau!" ~Caroline Nash, Louisiana State University Â "The program works extremely well at my university.Â It has produced a high level of linguistic competency within the context of the first year of instruction in all four skills areas.Â In addition, it works very well with the global interests of many of our students.Â The book is also easy to teach from and works well with a variety of approaches." ~Jean Marie Schultz, University of California at Santa Barbara Â "Chez nous is one of the few books on the market that has given grammar the attention it deserves.Â The authors are clearly aware of the issues involving grammar pedagogy, and they have admirably integrated findings from the field of applied linguistics into the development of their grammar explanations and activities.Â I appreciate the fact that, usually, the activities are not mechanical drills; instead, they are developed in a way that attempts to mirror naturally occurring discourse." ~Stacey Katz, University of Utah

The content in this book is perfect for a beginner learner of French. I had to buy this book for a University intermediate course but it was almost similar to what we had learned in the beginner course. Each chapter is detailed with French customs and traditions. It has exercises that you can practice on your own as well with a partner. I continue to use this book to keep up in French as I am no longer in University. The online supplementary program helped me a lot to master the language. What I like most of this book is that it includes little quips and facts of French society and how it differs from the America. Those helped me understand the similarities and differences between the two societies.

Apparently there is the 4th Edition, this one which is sold in my campus bookstore, and there is the 4th Edition with a bunch of extras including a code that you can use to access online resources. However, even if just using the printed book, there are some differences (titles, specific cultural content, etc.). Just so you know.

Shipped quick, book is in good condition. My only small complaint is I know these texts (new) come with a companion disk, not the Pearson lab but a CD (some of the exercises even reference track numbers) and that wasn't included. Not even a big problem with the whole internet as a resource.

This book is great! However, be aware that this textbook requires ONLINE coursework! You need to purchase a separate membership through the publisher if the textbook you purchase online doesn't have the membership code included. I ended up getting a great deal on my textbook, compared to the campus bookstore price, only to find out in class that I needed to purchase the membership code, too. I ended up paying the same price for the book and the code together, that I would have paid at the campus bookstore in one purchase anyway.

Chez Nous is a college edition, so it goes into greater depth. By page 7 it already starts to get into grammar. The appendix doesn't really contain much in the way of grammar, so you will have to flip back through the book to find what you're looking for. Also, the chapters are broken up into lessons which I am also not very fond of, but content wise, it does go into much greater depth than a high school book. Grammar is also talked about every couple of pages. The back cover of mine also includes the ISBNs of resources that can accompany the book. This includes audio activity manual and answer keys. So, if you look for them, this text has quite a few other resources to help you with the language.

The text is in very good condition but I didn't expect to have bought the teacher's edition of this book. I don't really want to buy another one, but I can probably resell this one because I don't need the access code.

Good way to learn French!

It's as good as a French text can be!
