Customer Reviews

Not what I expected and difficult to use.

I'm use to using a dictionary and looking up a word so I don't often look up just the letters that I have and the spaces between them. I've used it a couple of times but find I like the Million Word Crossword Dictionary better. I just feel more comfortable with the dictionary vs the answer book. It appears to be a very good book to look up known letters and spaces. It's just what your are use to.

Best dictionary for crossword lovers! There is very little that you can't find the answer for in this book. I have one at our house in Illinois and another at our house in Florida and a third on my kindle so when I am traveling I can find answers in a hurry.b

This is a new, and improved edition of a book I have used and loved for years until it was worn and ragged. I love it.

There are books that sound so grand until you buy them and then you wish you hadn't. The Million Word Crossword Answer Book is in this category. Difficult to us. And since I bought it, I've found a site on the www that is grand---Crosswordnexus.com. So you buy a book that seems so grand and then you find it is not. Lessons to learn.

Information hard to follow on how to use this book. It looks like it wood be a great help, if I could figure out the instructions.

This dictionary does not have everything, but it comes close. As far as I know, no other dictionary has movie info, award info, golf info, sports, info, you name it the way this one does. Sometimes it takes me 4 dictionaries to track down a word, but this is the only one that will allow me to find the name of a movie someone made in 1947! Can't live without it.

not what I thought it would be. I was looking for a phrase clue book since I do acrostics. The book is okay but a letdown
