Obtaining Images: Art, Production And Display In Edo Japan

Synopsis

The Edo period (1603â "1868) in Japan is famous as a time of relative peace and prosperity, a time of rapid urbanization that coincided with a rise in literacy as well as international contact, andâ "especiallyâ "a tremendous flourishing of art. *Obtaining Images* introduces readers to important artists of this time and the beautiful works that they produced. With historical depth, Timon Screech places these artists within the intellectual milieu of the Edo period, contextualizing their work within the contemporary issues and concepts that surrounded the production, consumption, and display of art during one of Japanâ "TM's most culturally robust eras. Rather than looking at Edo art through a European lensâ "as many books have already doneâ "this book seeks to understand the making and use of paintings and prints according to Japanâ "TM's own cultural and economic forces, elucidating how and why works were commissioned, where they were displayed, and what special properties audiences and buyers attributed to them. Screech explores the complex network of different imperatives and motivations that negotiated different traditions and how these forces resulted in the variety of styles weâ "TM've come to associate with the period. Firmly anchoring the art of Japan within wider Japanese culture, he provides a comprehensive introduction that offers fresh insights for students and general readers alike. Â

Customer Reviews

â œObtaining Images is a beautiful book, full of insights on every page. Timon Screech transforms our view of Japanese art, showing it to us through the eyes of the people who made, commissioned, bought, and saw it, and in the process taking us right under the skin of this very different society and

Filled with fascinating details. . . . The captions for 245 color illustrations give fascinating minutiae. . . . Highly recommended. (CHOICE) --This text refers to an out of print or unavailable edition of this title.

Excellent book for anyone wanting to learn about Edo painting.

Good framework. But Chapter 2 is full of ungrounded guesses and blatant mistakes. E.g. Fukurokuju means "good fortune, official income, and longevity" but on p. 33 it is said to be "the name of the god of long-life". Also, p. 48 talks about the eagle on the painting while in fact what is depicted is a turtle!
