Image Matters For Men: How To Dress For Success!

Synopsis

Let's face it, most men need fashion advice, and few of them are going to receive a visit from the Queer Eye gang. That's where Image Matters for Men comes in. In seven idea-packed chapters the Average Joe will learn which clothes will flatter his coloring and his build, which tie goes with which shirt, and which haircut and style of eyeglasses suit the shape of his face. There are detailed charts for mixing and matching colors and hundreds of photos of handsomely dressed models to help every man develop his own personal sense of style. The final chapter completes the head-to-toe makeover with detailed advice on beards and mustaches, shaving products, and facial skin care.

Customer Reviews

Veronique Henderson produces and styles the Colour Me Beautiful fashion shows. She also writes fashion and beauty tips for a monthly newsletter. She has been a contributor to The Complete Style Guide, Presenting Yourself for Women and Men, and Bigger Ideas. Pat Henshaw has worked in image consulting for the past 30 years and provided personal consultations for over 6000 people. She frequently appears on TV and radio. >

Excellent. This book is full of pictures and recommendations. I could not stop reading it. It has so many tips and real examples for everyone.

Es uno de los mejores libros que he tenido en mis manos para poder adaptar la teorÃa del color

al guardarropa.lo recomiendo ampliamente.JM

If you have graduated within the past 5-10 years and finally find yourself clawing up the corporate ladder, then this book is for you. Good stuff.

This book has some helpful advice on how to choose clothing colors that complement one's complexion. Unfortunately, the author tries to go well beyond that objective and fails pretty miserably. The worst feature of the book are its photographs, which show model after model wearing clothing that is too big, not properly tailored, or both. Collars gap away from their necks, cuffs droop down to their wrists, and slacks pool around their shoes. These men look simply awful, and that's inexcusable for a book about image.

I greatly appreciate this book. It does not insult the readers intelligence with overly trendy or immature commentary. Moreover, it is a common sense guide to organizing your wardrobe and selecting the best choices for your shape, size and color.

Excellent in every way except two ... they should have used illustration too and as well more combination of clothes on people based on their type of skin color ... but in all a good read ...

this book is a must for the man without a partner to advise him on what to wear and how to find colours to suit his skin tone.great advice given.

If you are young, fashion-oriented, and don't work in a professional or conservative industry, this book isn't bad. If you're over 30, looking to move up the corporate ladder, or an Alpha Male, STAY AWAY from this book.If you're a Man and you really want to learn how to dress, visit the most exclusive and elegant men's clothing shops in your town. Don't go to the mall. Minimize the visits to stores that sell both men's and women's clothing. You'll get similar advice from the owners of these stores. Go to plays and symphonies and you'll see how the affluent crowd dresses. The rules for successful dressing have very little to do with "fashion". Shop by yourself and leave the wife or girlfriend or both behind. It doesn't matter whether they like it or not. You want to dress like a Man. I can spot men who let their women dress them a mile away. You can do far better than this book.
