Kitchen Hacks: How Clever Cooks Get Things Done

Synopsis

Innovative solutions to everyday cooking challenges from our team of test kitchen

MacGyvers—the test cooks at Cook’s Illustrated magazineA kitchen hack is an unusual, easier, and/or better way of performing a task that often saves money and time or improves the quality of the outcome. In this wacky but eminently useful collection of kitchen hacks, you will learn how to outsmart tricky tasks and face down kitchen challenges (big and small) with innovative and clever ideas from Quick Tips, the most popular feature in Cook’s Illustrated magazine (900,000 circulation). Kitchen Hacks is a beautifully designed guidebook to hacking your kitchen . . . and beyond!

Customer Reviews

America’s Test Kitchen is well-known for its top-rated television shows with more than 4 million weekly public television viewers, bestselling cookbooks, magazines, websites, and cooking school. The highly reputable and recognizable brands of America’s Test Kitchen, Cook’s Illustrated, and Cook’s Country are the work of over 60 passionate chefs based in Boston, Massachusetts, who put ingredients, cookware, equipment, and recipes through objective, rigorous testing to identify the very best. Discover, learn, and expand your cooking repertoire with Julia Collin Davison, Bridget Lancaster, Jack Bishop, Dan Souza, Lisa McManus, Tucker Shaw, Bryan Roof, and our fabulous team of test cooks!

Dear Cook's Illustrated fans, I am one of Cook's Illustrated's biggest fans. My two star rating has nothing to do with the excellent content. The reason I have rated this book two stars is because the actual book size and binding make the book unusable. The book pages are five inches wide and parts of some illustrations disappear into the middle of the book where the pages are held together. The binding is a glued binding which causes the book to close immediately when you move one hand from the right or left side of the book. To keep the book open you need a very heavy pot which ends up covering the top half or bottom half of both left and right pages. When the weight is lifted, the book snaps shut. To keep the book open without a weight, a person would likely need to break the glued binding which would result in pages falling out over time. Also, the font is too small!!! If I had seen this book in a bookstore first, I would not have purchased the book. And do not think of giving it as a gift unless you want to torment the recipient! I would have given the book one star except the content is Cook's which is the best. Please look at this book in a bookstore before you buy it.

Fun to read - if only for the instant hard shell chocolate coating recipe for ice cream. Remember when that was the best thing at the ice cream store? Would be a five star but the binding is hard to use. Won't lie flat, have to squint to see some of the features. Would have been much better with a magazine style format.

I did find a number of these hacks to be new, helpful, and inventive. The substitutes list is one of the better lists out there. A fair number of practical hacks and substitutes, alongside some hacks and substitutes I'm sure I'll never use. The book is laid out logically, and the kindle version links well from the hacked index.

I bought this for a Christmas present and ended up keeping it. Even if you are not big on cooking this is an interesting book. Would make a great housewarming or graduation present.

I wish I had this book 40 years ago when I was starting out as a wife and working mom. I enjoy learning newer and easier ways to do things.

its like a buzzfeed article in book form, but I dd pick up a few hacks and techniques that will hopefully pay off

This book was so much fun! I highly recommend anyone who enjoys being in the kitchen to get this book! These hacks will save you time, money, and maybe save your meal in an emergency! Well-written with an economy of words while still including important details. I'm already using some of the ideas and plan to incorporate more as situations come up. Will read it again at some point and use it as a kitchen reference book, as well.

Fun reading and lots of tricks and easy recipes.
