Synopsis

A subject dear to children's hearts is in the spotlight as Leslie Patricelli's beloved baby character returns. Everybody does it: Kitty, Doggie, Daddy • even Mommy! And when Leslie Patricelli's beloved bald baby does it while running, it sounds like a train. This frank and very funny look at a certain noisy body function is perfectly suited to the youngest of listeners, while their giggling older siblings will be happy to read it aloud.

It's a plain fact: bodily functions and the sounds they make are funny. In Patricelli's latest, a toddler joyfully discovers his ability to, well, toot. He toots like a train, he toots on his trike, he toots in music class. Even better, the little tooter discovers that everyone does it • even mom and dad. What a gas! •Kiera Parrott, School Library Journal

Patricelli's trademark style of thick black lines on brushstroke-heavy backgrounds in jewel-tone colors are perfectly suited to her playful and irreverent subject matter. The young protagonist narrates both offerings in simple, direct sentences, and Patricelli fills the rest of the books with captions and sound effects galore... [A] playful delight... •Kirkus Reviews (starred review) Little listeners will delight in the book's celebration of the joys of body noise. ... For

families willing to have some flatulence-themed fun, this is a must-have. — Bulletin of the Center for Children's Books

Like all of Patricelli's books, Toot is very cute. I think my dad was offended by it, but then I didn't buy it for him. If the word fart bothers you, don't buy the book. I wonder if I will let me say fart in my review. It's pretty typical Patricelli fun, so if you are a fan you won't be disappointed. Fart, fart fart.

My 14 month old cracks up when I read this to him! Edit: My son is now 16 months and this is without a doubt his favorite book at the moment. He brings it to me to read for him on average about 5 times a day, if not more. He is engaged and has a big smile on his face the whole time. Many times when I finish reading it to him, I hand it back to him and he immediately hands it back to me to re-read. I've even been woken up in the morning with him coming into my room and shoving the book in my face while I'm still sleeping, lol. We also have "Yummy, Yucky", but this one is hands down more intriguing to him.

My daughter and I enjoy this book...her dad not so much. The pictures are cute and bright and this book makes me laugh. We've called my daughter toots since we was a newborn because...well...she toots a lot. That's the reason I bought this book. She just turned a year old and she seems to like the bright colors in this book and flips through the pages often on her own when she is playing. Glad I made the purchase. UPDATE 4/27/16: My daughter is 17 months old now and this is one of her go to books. She asks for it by saying, "Toot toot." We just got the Potty book in this series and while I also like that book...this one is definitely better in my opinion.

The first book I found by Leslie Patricelli was Hop Hop. It was Easter and I had something else picked out for my grandson when I happened upon that book. I enjoyed the illustrations and the story and decided to get him that book instead. He loved it and I loved it so I got online with Amazon and went in search of more and did not disappoint. After looking through all of this author's titles I ended up selecting Toot and The Birthday Box. The illustrations of this baby are the most adorable drawings ever, I fell in love with this baby immediately. My grandson (now 8 months) loves his books and loves for me to read them to him and show him the pictures. I can't wait to buy more. While I was purchasing the Toot and Birthday Box books, I also had a stuffed version of this baby for sale, I bought that too. We have the "baby" with us whenever we read the books to our grandson

Do yourself a favor and order Leslie Patricelli's Toot. Toots are funny! Everyone thinks so! :)My son has LOVED this book from the first time it was read to him. He is constantly bringing it to me or my husband to read to him (his favorite page is the one about tooting in the tubby).I have rented many of her books from the local library but It doesn't get any better than Toot!

This book is entertaining and I definitely recommend as it is funny but also educational.ProsNormalizes passing gasGood lengthNice illustrationsHumorousReal life examplesI think this will be helpful during potty trainingGood sizeConsI really like this book but would like a "the end"

Such a fun, as in laughing out loud, book! Our three year old grandson unwrapped the gift, looked down and then had this huge smile and we all knew that he knew what the subject of the book was! Cute drawings and one that can be re-read with laughter each time! Also complimented several other books Leslie Patricelli has done. Good selection for sure!

I love Leslie Patricelli's books! My grandsons, ages 1, 3 & 7 find this book so entertaining.As my niece had recommended it as one of 2 year old daughter's favorite books, I did order it with great reservation as I thought the subject matter seemed inappropriate.The kids love this book and I must admit it is pretty hilarious!
