The 39 Clues Book 1: The Maze Of Bones

Synopsis

The first book in the #1 bestselling phenomenon sends readers around the world on the hunt for the 39 Clues! Minutes before she died Grace Cahill changed her will, leaving her descendants an impossible decision: "You have a choice - one million dollars or a clue." Grace is the last matriarch of the Cahills, the world's most powerful family. Everyone from Napoleon to Houdini is related to the Cahills, yet the source of the family power is lost. 39 Clues hidden around the world will reveal the family's secret, but no one has been able to assemble them. Now the clues race is on, and young Amy and Dan must decide what's important: hunting clues or uncovering what REALLY happened to their parents.

Customer Reviews

Two of my boys have read this book. The 9 year old loves to read and truly enjoyed this book and plans on reading the rest of the series. It was fun to watch him try to predict the outcome! One of my older sons has an eye condition, therefore, reading is not fun. We allow him to read a bit and also listen (on Audible) so the eye doesn't bother him too much. Even though this series is below his

reading level- he loves it and has read 3 so far. I generally read what my kids are reading...so I can say that I recommend this series! Great for reluctant readers!

I chose 5 stars because this book was awesome! It had all the adventure a book could need. I highly recommend this book for young readers who enjoy a story that takes place all around the world, competitiveness and a fight.

If you are an adult who likes to read a book before his or her child reads it then you will enjoy this read as well. Rick Riordan has done it again by writing an action packed adventure during which I couldn't help but laugh out loud many times.

I wanted to read this series before I got it for my grandson for Christmas. I loved the Harry Potter series and this reminds me of that in a new way. Could not put this first book down and will read the rest before he gets it on Christmas Day. It teaches children tons of historical knowledge without them knowing. Now, on to book 2!!!

The librarian had recommended to me that I read this book and I refused. Then one day, I had nothing to read, I read it, and now I can't put it down. I am on the eighth book and the series just gets better and better!Ã Â‘Ã•Ã Â Ã•Ã» Ã Â‘Ã•Ã Â Ã•Ã»Ã Â‘Ã•Ã Â Ã•Ã»

Grandkids loved it.

9 year old son is hooked on these books.- I bought this copy for my 8 year old nephew. He loves them now too. The series is great for the kids who like a little mystery and action - thrown in with some non-fiction (geography references - art references- legends etc).

I really thought that the plot of the is was very interesting. There was a lot going on and so it was kind of hard to follow. Fun to read though and I probably will read the whole series!!!!
